

Join us and learn about this unique online opportunity!

Urban EE PLC Opening Webinar

Join us for the launch of the Urban EE Collective's Professional Learning Community (PLC), a space for the sharing of ideas and experiences and the building of knowledge through a collaborative and democratic process that promotes equity and respect. This PLC is presented by the EECapacity Project, which supports environmental education and youth and community development in the US, Canada, and Mexico.

The Urban EE Collective Facebook Group was created by the EECapacity project four months ago and now boasts more than 230 active members, who are sharing ideas, resources, and contacts. There is an immediate need for more collaboration among our community, and we are already learning from each other. This online Professional Learning Community is a natural step forward to continue advancing the field of urban environmental education. Through chat, wikis, blogs and webinars, we will be able to grow as practitioners and members of our own urban communities, while helping increase the capacity of our network.

[Register today for our opening webinar](#), where you will learn all you need to know about this PLC and about the EECapacity project, as well as hear a presentation on the evolving practice of EE. Please make sure you register soon to secure a spot. If you are unable to attend, be sure to register as a member of the PLC to access the recorded webinar after the presentation. For more information, send us an email to pepe@eeexchange.org

Webinar Program

The EECapacity Project

Presented by Dr. Marianne Krasny, Professor and Chair, Department of Natural Resources, Cornell University

Learn about the many opportunities offered by this innovative program, developed by Cornell University and the North American Association for Environmental Education (NAAEE), and funded by the EPA.

The Urban EE Collective PLC

Presented by Dr. Jose Marcos-Iga, International Programs Manager, Environmental Education Exchange

Get the scoop on this new online space for collaborative learning, the tools and resources available, and how to access them by becoming a member.

Evolving EE Practices in Urban Communities

Presented by Akiima Price, President, Akiima Price Consulting

Explore how the field of EE is evolving to better address the changing social landscape of urban communities through learning experiences that take into account the impact of socioeconomic conditions on behavior, and that promote environmental awareness and empower people to act.

THE EECAPACITY PROJECT IS MADE POSSIBLE BY THE US ENVIRONMENTAL PROTECTION AGENCY, IN COLLABORATION WITH CORNELL UNIVERSITY'S CIVIC ECOLOGY LAB AND THE NORTH AMERICAN ASSOCIATION FOR ENVIRONMENTAL EDUCATION.
